

GWM Function list V18.20

Note:

√ Functions marked with √ is fully supported and already existed in former software version.

Numb Index number of the special function , you can find the name from the special function table.

Special Function List

0001	Offline settings	0018	Calibration
0002	Sensor calibration	0019	Horizontal zero calibration
0003	Write VIN code	0020	special function
0004	data input	0021	Electric parking brake
0005	Write the battery ID number	0023	Longitudinal acceleration calibration
0006	Write function configuration	0024	Network Configuration (Manual)
0007	Write injector code	0025	Tire pressure sensor learning
0008	Write vehicle identification number (VIN code)	0026	Adaptive value clear
0009	Brake exhaust	0027	Read and write maintenance mileage defaults
0010	Functional configuration	0028	Read and write nozzle code
0011	Engine test	0029	Turn
0012	Aftermarket features	0030	Steering sensor calibration
0013	Reset the adaptive value	0031	Steering sensor calibration (ESP only)
0014	Headlight	0032	Odometer
0015	Zero manually	0033	Key learning
0016	Exhaust function	0034	Teach learning
0017	Deflate mode
