

Note:

√ Functions marked with √ is fully supported and already existed in former software version.

Number Index number of the special function , you can find the name from the special function table.

Special Function List

0001	Offline calibration	0007	Battery calibration
0002	Component Action Test	0008	Cumulative average fuel consumption is cleared
0003	Reset ECU self-learning value	0009	Tire pressure monitoring module registration
0004	Exhaust function	0010	Self-learning clear
0005	Deflate mode	0012	Corner sensor calibration
0006	Stepper motor reset	0013	Teach learning
